IMPORTANT!

Please check off this list before sending your hair sample:

I submitted my Online New Client or Online Retest Form.

I read the instructions on how to cut a sample.

I waited at least 4 hours after washing my hair to cut the sample.

I cut my hair sample from directly against the scalp with scissors only.

I cut my sample within 48 hours of washing my hair.

The sample is **no longer than** this line (shorter is better): 

I used the hair sample scale or filled a tablespoon with hair to have enough.

If I dyed, bleached or chemically-treated my hair, or if I have a water softener, I read the special instructions about that and followed them.
